SOMETHING GOOD

```
C                                        D#m6
Perhaps I had a wicked childhood
C                                              G
Perhaps I had a miserable youth
        C              C7              F       Fm
But somwhere in my wicked, miserable past
        C                         D#m6    G   C
There must have been a moment of truth

F                      D#m6                    C
For here you are, standing there, loving me
F           D#m6      G           F
Whether or not you should
        C                 C7        F              Fm
So somewhere in my youth or childhood
    C                      D#m6 G      C
I must have done something good

G
Nothing comes from nothing
F              Fm
Nothing ever could
    C                      C7        F              Fm
So somewhere in my youth or childhood
    C                      D#m6 G      C
I must have done something good
```
